

## **LB 1124, LB 270, as amended**

### **Qualified Activity Reported in 2007**

A separate application process is not required for this incentive program. The number of credits earned, jobs created, and investment made is reported by the filing a Nebraska Employment and Investment Credit Computation, Form 3800N, with a tax return. In order to earn credits, a company must be in a qualifying business and within the taxable year have an increase of \$75,000 in qualifying investment and two new full-time equivalent employees. For five years after the initial year of qualification, the business may receive additional credits for new employees without any additional investment.

This report includes 1998 through 2006 tax returns processed during 2007. A total of 1,382 separate businesses have filed for benefits under LB 1124 through 2007.

In 2007, the department approved 63 returns from businesses, eight of which reported new investment made and/or employees hired for the year 2003 or earlier. These eight returns reflected the following:

- Net new investment of \$3,366,880
- New full-time jobs of 39
- Credits of \$100,500

Forty-seven returns processed in 2007 showed maintenance of past levels of employment and investment. If a taxpayer fails to maintain the required levels of investment and employment for at least two years after the year for which the credit was first allowed, part of the used and unused credits are subject to recapture. During the subsequent two years, the taxpayer must repay to the state one-third of the amount of the credit subject to recapture for each year that the taxpayer did not maintain the required levels. Eight returns processed in 2007 reported recapture of past credits.

Credits may be carried over and used for the five immediately succeeding taxable years. Any credit carryover remaining at the end of the fifth year expires.

#### **Legislative Change:**

LB 608 was passed during the 2003 legislative session. LB 608 changed the provisions of the Employment Expansion and Investment Incentive Act, the Act. The provisions of the Act, as described at the top of this page, are effective for tax years before 2004. For tax years beginning on or after January 1, 2004, the provisions of LB 608 must be met in order to earn credits under the Act.

A company which created credits in tax years before 2004 may use these credits during its five year carryover period. The company must file to show maintenance of the required investment and employment levels for two years.
